

The activities of AKMON SA, which are included within the scope of the Quality & Environmental Management System, are:

Development, design, production, assembly, integration, support, maintenance and supply of electrical and electronic systems, consoles, cabinets, components, cables for telecommunication, defense, and aerospace applications.

The vision of AKMON SA is to create a company whose name would become synonymous with high quality products for the Aerospace and Defense Industry provided with respect towards the environment.

To achieve its vision, an Integrated Quality & Environmental Management System is implemented with appropriate documented procedures for its operations, in accordance with the requirements of the international standards EN ISO 9001:2015, EN ISO 14001:2015 & AS 9100D (EN 9100:2018 & JISQ 9100:2016).

The Company's strategy is:

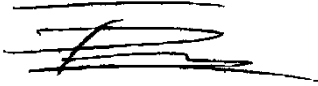

- Achieve and maintain high quality standards throughout the product range
- Use materials and raw materials of excellent quality
- Ensure RELIABILITY, SAFETY, ERGONOMICS and the PERFORMANCE of products
- Satisfy customer requirements
- Ensure on time delivery and product safety and conformity
- Control all product characteristics
- Provision of all necessary resources for the minimization of the environmental impacts
- Detailed and regularly updated assessment of the environmental aspects and parameters, in order to identify and treat, or effectively minimize any factors that may lead to pollution
- Efficient and environmental-friendly management of the company's solid and liquid waste, focusing on the separate collection and recycling
- Continuous training of its personnel on quality & environmental issues
- Full compliance with all the relevant and applicable Greek and European legislation, standards and other obligations
- Continuous improvement of the quality & environmental management system with a view to enhancing its performance according to EN ISO 9001:2018 and AS 9100D (EN 9100:2018) & EN ISO 14001:2015
- Provide all necessary resources for the maintenance and continuous improvement of Quality & Environmental Management System

Applying our strategy, the Company is committed to the following OBJECTIVES:

- Absolute customer satisfaction of the company's products as well as technical support
- Customer complaints reduction
- Improving productivity, maintaining the same high quality of our products
- Satisfaction of all applicable requirements
- Continuous training of employees
- Continuous and full implementation of Company's Quality & Environmental System
- Improve the effectiveness of the Quality & Environmental System procedures.
- Protection of the environment, preventing any conditions and incidents that may lead to pollution or harm, as well as managing environmental resources sensibly and responsibly
- Communicating this policy to its employees, subcontractors and related third parties working under the control of the company, and to any other interested party and the public
- Reviewing and updating this policy and the related documentation so that it remains relevant and appropriate to the company's needs and operations

This Quality & Environmental Policy has been communicated to the personnel of the Company and is supported by all employees.
